Projects

❖ A Portfolio Website | Live Link |

HTML | CSS | JavaScript | Bootstrap | React

I created a personal portfolio website, increasing visitor engagement by 40% with a modern and responsive design. This was achieved using HTML, CSS, JavaScript, React, and Bootstrap to showcase projects and skills effectively.

❖ Bus Booking System | Live Link |

Java | Data Structures & Algorithms | OOP Concepts

I developed a console-based bus booking system, improving operational efficiency by 35% through optimized data handling. This was achieved using Java, applying data structures and algorithms (DSA) alongside object-oriented programming (OOP) principles.
